

Introduction

Whilst many pupils will leave school with an excellent academic education they may not be so well prepared for the challenges of overseas travel. Many students will take a Gap Year or travel before or during university and our training provides an opportunity to broaden their knowledge and awareness of the wider world. In most cases our introduction to schools has been via parents concerned that their children need a 'top up' before they face go overseas. Our courses or talks are most effective when given to pupils in the Upper Sixth Form.

Course/Talk Options

We can offer either a 1 to 1 1/2 hour general talk on overseas travel and safety or either a full day or half day course, the latter is the most popular for schools. These courses are modeled on our renown one day Objective Gap Year Safety course which has been running for 10 years regularly in London.

Typical Course Contents

- ❖ Situation Awareness
- ❖ Personal safety and crime prevention
- ❖ Kit; what to take, how best to pack, safety gadgets
- ❖ Before you go; understanding security, religious, cultural issues
- ❖ Getting About; safety in taxis, airports, buses, money matters
- ❖ Accommodation, safe food and water, sickness abroad....
- ❖ Environmental issues; earthquakes, tidal rip currents....
- ❖ Female issues abroad
